EXPERIENCE

2017 - 2026

Aivia Inc. | Software Engineering Manager | Lead Full Stack Developer
Managed a team of developers in the creation of custom software solutions and was the lead developer and team manager for the development of the COM-MU-NI-KIT sass platform. As development lead I helped scale the platform from a single community to over 260 communities across north america and hundred's of thousands of users. In my role with Aivia Inc. I lead the development of dozens of custom software solutions before transitioning to purely a sass platform in 2022.

2015 - Present

Freelance | Full Stack Web Developer | Designer
Coordinated and communicate with freelance clients to plan web, mobile and software development projects from initial concept through to completion, utilizing a variety of web development tools, development languages and technologies.

2014 - 2016

Trickster Theatre | Content Creation Manager | Designer | Developer
Manager of on-line digital content creation, videography, video editing, designer of print and online promotional materials, in house web developer, and server administrator.

2012 - 2014

Alfred University | Teaching Assistant
Assisted in teaching undergraduate level classes in disciplines including Print Media, Design, 3D Sculpture and Digital Media. Conducted demos, lectures, critiques and held office hours in the evenings and on weekends to further assist students.
